B.Tech, Computer Science and Engineering

Address : A-130/3 S-1 Dilshad colony Delhi-95

Education

SRM IST-Ghaziabad

B.Tech · Computer Science and Engineering

2027

CGPA - 8.55/10

Arwachin bharti bhawan sr. secondary school

Class XII - CBSE · mpc · vivek vihar delhi

2023

Percentage - 62%

Arwachin Bharti Bhawan sr. secondary school

Class X - CBSE · science, maths standard · Vivek Vihar

2021

Percentage - 61.4%

Experience

Vasi Gateways Private Limited | [Internship Certificate](#)

May 2026 - Jul 2026

Technology Intern – FinTech · Internship

Worked with the technology team and gained practical exposure to FinTech systems and payment workflows. Studied POS machine operations, merchant onboarding, and live merchant workflows. Explored the functionality and workflow of Admin, Merchant, and Retailer panels within FinTech platforms. Gained an understanding of banking system integration and payment processing workflows in software applications. Completed task-based technical assignments to develop practical knowledge of FinTech operations and system workflows.

Projects

Scholar Hub – AI-Powered Career & Resume Analysis Platform | [Live Project](#)

May 2026 - Jun 2026

Personal Project · HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, JWT, Nodemailer, AI API

Full Stack Web Development & AI Integration

Developed a full-stack AI-powered career platform featuring separate User and Admin dashboards with secure JWT-based authentication and email verification.

Integrated an AI-powered Resume Analyzer that evaluates uploaded resumes, generates detailed analysis reports, and enables users to download reports.

Implemented Job Recommendation, Job Tracker, and Saved Jobs features to help users discover, organize, and track job opportunities.

Developed an Admin dashboard for managing users and accessing resume analysis reports with chat-based report interaction functionality.

Built RESTful APIs using Node.js and Express.js with MongoDB and Mongoose for backend data management and designed a responsive frontend using HTML, CSS, and JavaScript.

Certifications

Getting Started with Artificial Intelligence | [Verify Certificate](#)

Jul 2026

IBM SkillsBuild

Completed the IBM SkillsBuild "Getting Started with Artificial Intelligence" certification, covering AI fundamentals, core concepts, and introductory applications of Artificial Intelligence.

Introduction to Artificial Intelligence | [Verify Certificate](#)

Jul 2026

IBM SkillsBuild · ALM-COURSE_4058918

Completed IBM SkillsBuild's Introduction to Artificial Intelligence course covering AI fundamentals, machine learning basics, responsible AI, and practical business applications.

Large Language Model Basics | [Verify Certificate](#)

Jul 2026

IBM SkillsBuild · ALM-COURSE_4058872

Completed IBM SkillsBuild's Large Language Model Basics course, learning transformer architecture, LLM concepts, prompt fundamentals, and practical generative AI use cases.

Completed IBM SkillsBuild's Mastering the Art of Prompting course, developing effective prompt engineering techniques to generate accurate, context-aware, and high-quality AI responses.

Publications

Early Detection of Cardiovascular Diseases Using Machine Learning |

May 2026

[Presentation Certificate](#)

ICMCE-2026, Teerthanker Mahaveer University

Presented the research paper “Early Detection of Cardiovascular Diseases” at the Second International Conference on Modern Trends in Computers and Electronics (ICMCE-2026), held on 1–2 May 2026 at Teerthanker Mahaveer University, Moradabad.

The research explores machine learning-based approaches for early cardiovascular disease detection using multiple classification algorithms and comparative performance evaluation.

Skills

Programming Languages: C++**Languages and Frameworks:** Html , css, java script, Node.js, Express js**Tools and Technologies:** Mongo db, Git , Github, Vs Code, Postman

Languages

english [Fundamental Proficiency], Hindi [Native Proficiency]
